

Alcuni Esempi di Cablaggio Some examples of wiring

A Cavetti in vetro silicone con terminali a bassa forza inserzione dritti e a 90° con capsule isolanti, faston maschio e faston cilindrico.

Silicone glass cables with straight and 90° reduced insertion force terminals with insulating sleeves, male and cylindrical fastons.

B Cavetti isolati in silicone e PVC 70C° e 90C° con terminali per elettronica, occhielli, faston femmina 4,8 faston sicurezza 6,3x0,8 con capsule isolanti.

Silicone and 70C° or 90C° PVC insulating cables with terminals for electronics, eyes, female 4.8 fastons, and 6.3x0.8 safety fastons with insulating sleeves.

C Assemblature particolari: inserimento dei cavetti in morsettiere, guaine, aggaffature TCO, spie.

Special assemblies: cables with terminal blocks, sheaths, crimped on TCOs and LEDs.

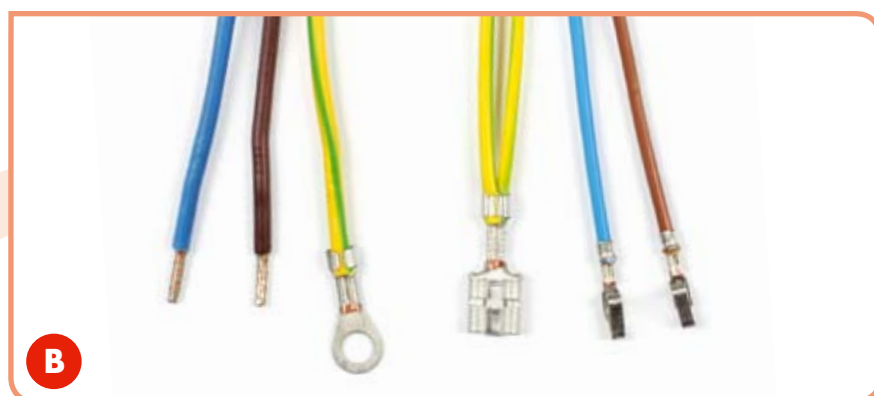

D Assemblaggio complesso con inserimento di guaine, blocchetti, copri faston colorati e fascettatura.

Complex electrical wiring harnesses with sheaths, housings, coloured sleeves and ties.

Alcuni Esempi di Lavorazioni Some examples of workmanship

A Spine Europee ed extra-europee
European and Extra-European plugs.

B Finiture particolari lato opposto alla spina, morsettiere, passacavi, blocchetti, commerciali o su disegno del Cliente.

Particular finishing on the side opposite to the plug, terminal-blocks, cable clamp, housing. These are articles commonly found on the market or, produced as per customer's drawings.

Prodotti Products

Spezzoni cavi multipolare personalizzati.

Sections of customised multi-conductor leads.

LEADS:

Gbm produces leads of multi-core PVC H05VV-F cable, H05RR-F rubber, neoprene H05RN-F and H07RN-F, Silicon, shielded cables with variable section and number of conductors and special cables on customer's request. Gbm could diecast cable clamps and do particular workmanship on customer's request. (insertion of label, ring, etc.)

SPEZZONI CAVO

Gbm produce spezzoni di cavo multipolare PVC H05VV-F, gomma H05RR-F, neoprene H05RN-F e H07RN-F, Silicone, Cavi Schermati con sezione e numero conduttori variabili e a richiesta cavi speciali. Inoltre Gbm può effettuare lo stampaggio di passacavi pressofusi ed eseguire assemblature particolari su richiesta del Cliente (etichettatura, inserimento ghiera ed altro).
